Silenso Clinic Paul Schalch Lepe, MD, FACS Earns CT Reaccreditation by the IAC

Approximately one in 10 Americans undergo a Computed Tomography (CT) scan each year in order to detect abnormalities, injuries or diseases. A highly regarded diagnostic imaging tool due to its ability to detect minute differences in tissue as well as its multiplanar reformatted imaging capabilities, CT is used to diagnose conditions of the neck, chest, abdomen, pelvis, extremities, cardiac and vascular system and sinus and temporal bones.

There are many factors that contribute to an accurate diagnosis based on CT imaging. The training and experience of both the operator performing the procedure and the interpreting physician, the type of CT equipment used, adherence to radiation dose guidelines and the quality assessment metrics each facility is required to measure, all contribute to a positive patient outcome. IAC accreditation is a “seal of approval” that patients can rely on as an indicator of consistent quality care and a commitment to continuous improvement.

Silenso Clinic Paul Schalch Lepe, MD, FACS located in San Diego, CA has been granted a three-year term of accreditation by the Intersocietal Accreditation Commission (IAC) in CT in the area(s) of Maxillofacial CT. This latest accreditation awarded to Silenso Clinic Paul Schalch Lepe, MD, FACS demonstrates the facility’s ongoing commitment to providing quality patient care in CT.

Accreditation by IAC indicates that Silenso Clinic Paul Schalch Lepe, MD, FACS has undergone an intensive application and review process and is found to be in compliance with the published *Standards*, thus demonstrating a commitment to quality patient care in CT. Comprised of a detailed self-evaluation followed by a thorough review by a panel of medical experts, the IAC accreditation process enables both the critical operational and technical components of the applicant facility to be assessed, including representative case studies and their corresponding final reports.

About IAC

The IAC is a nonprofit organization in operation to evaluate and accredit facilities that provide diagnostic imaging and interventional-based procedures, thus improving the quality of patient care provided in private offices, clinics and hospitals where such services are performed. The IAC provides accreditation programs for vascular testing, echocardiography, nuclear/PET, MRI, diagnostic CT, dental CT, carotid stenting, vein treatment and management, vascular interventional, cardiac electrophysiology and cardiovascular catheterization. The IAC programs for accreditation are dedicated to ensuring quality patient care and promoting health care and all support one common mission: Improving health care through accreditation[®]. Committed to its mission through a rigorous peer review process, the IAC has granted accreditation to more than 14,000 sites since its inception in 1991. To learn more about IAC, visit intersocietal.org.

Media List Form

Instructions: If you would like the IAC to disseminate the press release above on behalf of your facility, please fill out the requested contact information below for up to 8 media outlets (e.g., local newspapers, magazines or trade publications). Each entry should include at a minimum: publication name, contact name (e.g., an editor or reporter) and contact e-mail address. This is a complimentary service offered by the IAC, but this is not a paid advertisement; running the information provided in your press release is solely up to the media outlets you selected. This form may be e-mailed to marketing@intersocietal.org. Please note: The press release provided is meant for marketing purposes only and is not meant to notify insurers of your accreditation status.
